

## Explore the technology, insights and trends shaping the future of IT and business

How we work, communicate and collaborate has changed drastically and will continue to evolve. CIOs and IT executives are expected to deliver value to their organizations like never before. From realizing the potential of digital to addressing environmental and societal challenges, IT leaders are looked upon to provide businesses a competitive edge — especially in times of uncertainty.

The **Gartner IT Symposium/Xpo™ 2022** conference is the place where leadership, technology innovation and business strategy converge. Attendees walk away with insights and expert guidance on the future direction of technology, best practices to define and validate their IT strategies, and real-world examples on how to execute on key initiatives.

### Conference tracks

#### A. Future Direction

Understand what's next in a changing world. Explore the emerging technologies and trends that will impact your future planning.

#### B. Strategies for Success

Learn how to create best-in-class strategies for success to achieve your mission-critical priorities.

#### C. Critical Execution

Shift from strategy to execution. Explore best practices for implementing technologies, approaches and solutions that drive outcomes.
